NEW PRIMARY LAW SURE TO PASS

Joint Apportionment Committee Mapping Out the Districts.

CITY ELECTIONS BILL

Not Much Chance for the Bill Providing Improvements for Country Roads.

SOLONS BUSY AT MADISON

Madison, Wis., Feb. 9.—The thirty members of the joint apportionment committee of the legislature will get to work in earnest next week mapping out the asesmbly and senatorial districts, which will be laid out before the congressional districts are taken up. The latter however will not be lost sight of at any stage of the proceedings by several of the members who have congressional aspirations, and it is a safe prediction that the bill will not be ready to present to the legislature until some time after the date fixed for the introduction of new business. As this will be a committee measure, however, it will not come under the rule. The secretary of state has had printed a large number of outline maps showing the boundaries, population and vote of each county, for the accommodation of the members.

Primary Election Hearing.

The first hearing on the primary election bill will be held on Tuesday afternoon at a joint session of the committees on privileges and elections of the two houses. There is considerable talk of substitute bills, one of which will propose that the law be given a trial in the Milwaukee county before it is made general, while a proposition credited to Senator "Long" Jones is that the bill be submitted to the people for their approval before it is made operative. The bill, however, is likely to go through the legislature in practically its present form. But little opposition to it is expected in the assembly, while the supporters of the measure claim that a canvass of th senate shows 18 of the 33 votes there in its favor.

To Amend Constitution.

Three amendments to the state constitution are on their way through the legislature, the most important being the anti-pass measure, which has pasesd the assembly and will receive a practically-unanimous endorsement in the senate the coming week. It will then after being signed by the governor go before the people to be voted on. Another amendment up for second passage is the one which authorizes the legislature to pass a banking law, while the third provides for the election of the state superintendent of public instruction in the spring instead of at the fall election of other state officers, the idea being to remove the office as far as possible from the realm of politics.

Biennial Election in Cities.

The bill providing for biennial elections in cities of the third and fourth classes, which includes those having populations under 20,000, is likely to become a law. It also provides a salary for mayors of not more than $900 in cities of the third class or $1,200 for the fourth class. No opposition has been manifested to the bill, which is the child of the Wisconsn league of Municipalities, though representatives of several cities have appeared bfore the committee to urge amendments to fit their particular cases.

The Anti-Cigarette Bill.

The anti-cigarette bill comes up for its final hearing on health and sanitation next Thursday afternoon. Representatives of some of the big eastern tobacco companies promise to be on hand then to oppose the bill, but unless they bring forward some very convincing arguments it is likely to receive the sanction of the upper house and become a law. At the hearing last Thursday the only opponent was Judge Stover, representing Milwaukee dealers, while there were arguments in its favor by Supt. of Schools Dudgeon of Madison, Mrs. M. A. B. Heath, Secretary Wingate of the stae board of health and others.

To Improve Country Roads.

The bill authorizing state aid for country road improvements is likely to meet its death in the senate, where it originated. No one appeared before the senate committee on roads and bridges to oppose it at its first hearing on Thursday afternoon, while Otto Dorner of Milwaukee, president of the Wisconsin Good Roads League made a strong argument in its favor. There is a considerable quiet opposition to it, however, among several of the senators, some of whom, while in favor of the bill if it were rightly used, fear that it would open the gates to a reckless and unfair use of state money and become as much of a reproach to the state as is the river and harbor bill in the nation.

An Anti-Saloon Bill.

An old acquaintance came back to the legislature Friday in the shape of a bill prohibiting saloons within a mile of the state unversity, or within 500 feet of a church or school house anywhere in the state. The bill has the effect of reducing some thirty Madison saloon keepers who come under its ban to a state of nervous prostration, but it is not likely to get much beyond that stage. Among other liquor people that it would put out of businesss is the Hausmann Brewing company, whose big brewery is located midway between the university and the state capitol.

To Increase Salary of Judges.

The bill to increase the salary of the justices of the supreme court from $5,000 to $7,000 a year is likely to receive the aproval of the senate, though a provision of the same bill raising the salaries of the circuit court judges from $3,600 to $5,000, with a $400 expense provision eliminated, will meet more opposition. The argument that a lawyer who is qualified to sit on the bench can earn more than a judge's salary in his practice is advanced by the supporters of the measure.

MOB IN MADRID STREETS.

Crowds Hoot the Count De Caserta of Bourbon.

Madrid, Feb. 9.—The popular hostility to the marriage of Princess Maria de las Mercedes to Prince Charles of Bourbon found vent upon the arrival here of the Count of Caserta, the bridegroom's father. There was a considerable crowd at the station, and it hooted, hissed and shouted, "Death to Caserta!" "Down with the Bourbons!" The police scattered the crowd. The demonstration was renewed in the evening in front of the royal palace. The anti-Jesuit demonstrations continued in the evening. Groups of students paraded the streets, manifesting opposite the offices of the Libera newspapers and in front of the Convent of the Sacred Heart. They shouted, "Death to the Jesuits." The police dispersed them, but others stoned the convent.

ELKS WILL ARRANGE PLANS.

Grand Lodge Convenes Today to Change Convention Date.

Milwaukee, Feb. 9.—The Grand Lodge of Elks meet here today to change the date of the annual convention to be held here next summer. The date fixed is for the week of July 16. The officers of the lodge arrived last night and they report that the meeting to be held here will be the largest in the history of the organization. The reason of this is that the annual Milwaukee carnival has been put into the hands of the Elks to manage this year, and it will be held at the same as the Grand Lodge meeting. The date probably will be changed from July 16 to July 26.

LAYING A TRAP FOR MRS. NATION; SCHEME TO BRING HER TO TRIAL

State Will Act as Prosecutor and Endeavor to Convict Her of the Malicious Destruction of Property—At Des Moines Tonight.

Wichita, Kan., Feb 9.—Mrs. Nation is to be brought to trial on the charge of malicious destruction of property in wrecking saloons, if the plans of County Attorney Conley are carried out. If convicted she will have to serve one year in jail and pay a fine of $1,000.

Heretofore Mrs. Nation's attorney's have relied in their defense upon the supposition that the prosecution must be undertaken by the saloon-keepers, who, as violators of the state prohibition law, could be impeached and deprived of legal redress. Mr. Conley's plan is to have the state act as prosecutor, in which case the saloon keepers will appear simply as witnesses.

Mrs. Nation's trial has been set for the March term, and Judge Dale says he will tolerate no delay or trifling excuses. If Mrs. Nation is in the east on lecturing tours she will be compelled to return here for appearance. Warrants are already in the hands of Sheriff Simmons and will be sreved as soon as possible.

Mrs. Nation's atorney's admit that this changes their cleint's chances of acquittal considerably.

Jerry Simpson, while here today, expressed himself as believeing that Mrs. Nation's crusade would plunge Kansas into a terrible rebellion, and that much blood would be shed. He says that the officers are to blame, as they fail to enforce the laws already on the statute books. He thinks that Kansas ought to be ashamed of this exposure to the world of how dishonest are state and city officials.

This afternoon six women attempted to raid billiard halls at Clearwater, near here, and today the president of the city council appealed to Wichita officers for aid in preventing women from tearing up the town. No aid was sent and a raid is expected tonight or tomorrow.

Council Bluffs, Iowa, Feb. 9.—Mrs. Nation arrived here at six fifteen this morning and met a cordial reception from a number of people who were at the depot. She remained only long enough to take the next train for Des Moines where she speaks tonight. She will be at Muscatine on Monday, Chicago Tuesday and Wednesday and return to Topeka where she says that she will do more housecleaning.

DAD FLYNN IN CUSTODY

Chicago Detectives Take Him and He May Be Taken to Milton Junction.

Chicago, Ill., Feb. 9.—Frank Flynn known throughout the northwest as "Dad" Flynn was captured last night by detectives and it is supposed that a raid on banks and postoffices has been frustrated. Flynn was recently released at Madison, Wis., because nobody wanted him, but his partner Fitzgerald is wanted now at Milton Junction on a charge of safe robbing.

"Dad" Flynn is perhaps the oldest and most experienced safe blower and bank robber in the United States. He has successfully planned and carried out big robberies in San Francisco, New York, Boston and other metropolitan cities while the officers of the smaller towns throughout the country have for years wondered and guessed as to his whereabouts. He is noted among bank thieves as possessing not only the rare faculty of plannig a big job, but is credited with having the executive ability to carry one through and escape detection.

KILLED FOR 35 CENTS.

New York Man Meets Death in Trouble Over Small Debt.

New York, Feb. 9.—Charles Yost was stabbed over the heart last night by Fred Hoffman, a groceryman, in Hoffman's store. Yost managed to get to his home, where he died in his wife's arms. Hoffman was arrested.

According to the story told by the police, Mrs. Hamill, Mrs. Yost's sister-in-law, went into Hoffman's store to make a purchase. Mrs. Hoffman, the wife of the grocer, was behind the counter, and she deducted from the money tendered in payment the sum of thirty-five cents which she asserted was owed by Mrs. Yost. Mrs. Hamill objected to paying her sister-in-law's alleged bill.

Hamill went to the store and demanded the money. Yost soon arrived on the scene. The grocer made an effort to get Hamill and Yost to leave the place but they refused. In a struggle Yost was stabbed just over the heart.

Talk of Consolidating.

New York, Feb. 9.—The Journal of Commerce says: "It has been learned that negotiations are well under way between representatives of the General Chemical company and the New Jersey Zinc company for a consolidation of these interests. The formal plan provides for the incorporation of a new company with the following capitalization: Preferred stock 6 per cent cumulative, $15,000,000; common stock, $24,000,000; 5 per cent 100-year debentures, $25,000,000; a total of $84,000,000.'"

Report from Kitchener.

London, Feb. 9.—Lord Kitchener reports to the war office, from Pretoria, as follows:

"The British column destroyed supplies at Petrusburg and brought 300 horses and cattle. Dewet is reported still north of Smithfield, moving east. A detached force, which crossed the line at Pompi Siding, is moving on Philopolis. Methuen reports from Lillifontein, east of Vryburg, that he scattered the enemy there and captured twelve wagons and cattle. French is near Ermelo."

Rear Admiral Rearick Dead.

Washington, Feb. 9.—Rear Admiral Peter A. Rearick, retired, was found dead in his bed this morning at his home. He was sixty-three years old.

WIFE IS PROVIDED FOR

How a Portage County Farmer's Will Guards the Widow Against Want.

Stevens Point, Wis., Feb. 9.—By the will of John Cisler of the town of Carson the farm was left to one of his sons, but it was provided among other things, that he should support his mother during her natural life. How this should be done was minutely set forth, the will providing that he "shall provide for her use in the buildings on the farm one bedroom and one room with a stove and shall furnish yearly the following: Eight cords of stovewood for one stove, 300 pounds of wheat flour, 200 pounds of rye flour, 10 pounds of coffee, 200 pounds of pork, 13 bushels of potatoes, 25 heads of cabbage, 20 pounds of sugar, and shall keep and feed one cow and if his mother is unable to milk the cow then he shall milk the cow and deliver to his mother one quart of milk every day and one pound of butter every day, and also have eggs every day.

TAYLOR RESIGNS HIS POST.

Called Upon by Gov. La Follette to Explain His Expense Account.

Madison, Wis., Feb. 9.—George W. Taylor of Marinette today resigned as secretary of the board of immigration and no successor will be appointed. The salary is $1,800 a year. An annual appropriation is made of $5,000 a year for encouraging immigration by the board. Yesterday Taylor was summoned by Gov. La Follette to give an account of his stewardship, his salary and expenses in less than a year thus far having been $3,950. His resignation immediately followed.

Kearney Paintings Sold.

New York, Feb. 9.—Forty-three paintings, the collection of the late Edward Kearney, with a few additions of a private collector, have been sold at the American Art Galleries for $31,300. The highest price was paid for Mauve's "After a Rain—Holland," this picture being finally sold to A. Lewinsohn for $3,700.

Bank Safe Blown Open.

Youngstown, O., Feb. 9.—Three masked men entered the bank at Andover, O., bound the watchman, Alonzo Root, and blew open the safe, but were frightened away by persons attracted to the scene by the explosion. The safe was blown to pieces and the building badly wrecked. There is no clew.

Colorado's First Governor Dies.

Colorado Springs, Colo., Feb. 9.—Robert W. Steele, first governor of Colorado, from 1859 to 1861, is dead here, aged 81 years. He was a native of Ohio, where, in 1849 he was married to Susan Nevin, who died Wednesday, aged 80 years. Mr. Steele made the first discovery of silver in 1864.

Gravel Worth $3.50 a Shovel.

Victoria, B. C., Feb. 9.—The steamer Tees from Skagway has brought news of a rich find in the Atlin district, near Discovery, on a place owned by Fritz Miller. Gravel going $3.50 to the shovel has been found on bedrock.

For Death by Electricity.

Denver, Colo., Feb. 9.—The bill providing for the restoration of capital punishment and naming electrocution as the method passed the house on the third reading, 41 to 24.

GEN. B. M. PRENTISS IS DEAD.

Famous Fighter of Civil War Passes in Missouri.

Bethany, Mo., Feb. 9.—Gen. Benjamin M. Prentiss, the well-known veteran of the Mexican and civil wars, died at his home in Bethany after a long illness. He was 81 years old. Gen. Prentiss was one of the great characters from Illinois developed by the civil war, although he had shown excellent qualities as a soldier during the war with Mexico, rising to the command of a regiment and distinguishing himself in many battles fought under Gen. Taylor during the entire struggle. For thirty years Gen. Prentiss was a resident of Quincy, Ill., and when he left the state soon after the war, it was to settle in Bethany, at which point he continued to reside until his death. At the breaking out of the civil war, Capt. Prentiss organized a company of volunteers and by telegraph tendered Governor Yates of Illinois, father of the present executive of that state, the services of the company. The offer was promptly accepted and the company was immediately ordered into service. It has often been said that had it not been for the fact that Gen. Prentiss entered the army as a volunteer instead of a regular he might have been commander of the Union forces during the civil war and subsequently president of the United States instead of Gen. Grant. Gen. Prentiss met Gen. Grant at Jackson, Miss., and so, according to his own statement made many times during his life, he made a mistake. Both were brigadier-generals, and Prentiss objected to receiving commands from one whom he believed to be his inferior. Investigation revealed that they had both been commissioned brigadier-general on the same day, colonel on the same day, but it was found that just after the close of the Mexican war Grant was a captain in the regular army, while Prentiss was a captain of volunteers. Grant was the superior officer, but Prentiss did not know it at that time, and shortly after receiving an order from Gen. Grant to march his command to Jackson, he bade adieu to it and reported at St. Louis. Gen. Prentiss was afterward put in command of the Union forces in northern Missouri, with headquarters at Jefferson City, at which place he remained until 1861, when he reported to Grant.

E. G. Harrison Is Dead.

Washington, Feb. 9.—Edmund G. Harrison, special agent and road expert of the public roads division of the Agricultural department, died here last night, aged 72 years. He helped General Roy Stone organize the public roads division and had appeared before the legislatures of every state east of the Mississippi in the interest of good roads. He was born in Hulmville, Pa., and for four years was postmaster at Asbury Park, N. J.

Frick Causes a Hitch.

Pittsburg, Pa., Feb. 9.—It is said that C. H. Frick has caused a hitch in the deal for the sale of the Carnegie stock to J. P. Morgan. The trouble is over Charles M. Schwab, president of the Carnegie company. It is reported that Andrew Carnegie will make the retention of President Schwab a provision of the sale of his interest. Frick does not like Schwab and if the latter continues at the head of the company instead of Frick, who, many think, will return to power. Carnegie will be turning a trick on Frick.

Governor Gallet Recalled.

San Francisco, Feb. 9.—Governor Gallet, who for three years has controlled the affairs of Tahiti, has been recalled to France and is now on his way east from this city. His successor, Edouard Petit, will leave here on the next steamer for the island. Old age is the ostensible reason assigned for the retirement of Governor Gallet, but it is stated he displeased the French people in Tahiti by showing favors to the German settlers.

Mrs. Hansch Kills Herself.

Santa Barbara, Cal., Feb. 9.—Mrs. Frederick Hansch shot and killed herself last night while temporarily insane. Mrs. Hansch, who was very wealthy, was the daughter of Baron Myer, a wealthy banker of Dresden, Germany, and her mother was an English lady of noble birth. She was the divorced wife of Count Ritter of the German navy.

Harvey Clark of Monroe, was in the city yesterday on legal business.

LOOT TREASURES OF THE TEMPLES

The Tiles of the Roof Are Found To Be Gold Plated.

METAL GODS ARE SOLD

Chinese Make Serious Charges Against All Foreigners in Regard to Looting.

BUDDHISTS ARE UP IN ARMS

Pekin, Feb. 9.—The selling of loot has not been stopped here. The discovery was recently made that some of the Buddhist temples have gold plated roofs. Everybody at once went on a hunt to find them. The British discovered one containing a thousand feet of metallic tiles plated with gold. The tiles were believed to be solid gold until they were analyzed. When it was found they were plated and worth only $7, Mexican, a square foot, there was, as may be imagined, a great disappointment among the looters. They were sold today, and brought $10 a tile as souvenirs. The Chinese report a race between the Japanese and French for six other temples. The Japanese won, and captured twenty-one cartloads of tiles. The British now offer to sell three gods made of copper and gold plated, weighing two tons each. Smaller gods are sold daily.

Charges Bishop with Looting.

The family of a member of Tsung-li-Yamen, whom the Empress Dowager caused to be executed because he would not sanction the anti-foreign movement, has complained to the international government at Pekin, charging Bishop Favier, who is now in France, with looting his house of money and property to the value of 1,000,000 taels, the day after the siege ended. The dispatch adds that a league of civilian looters of all nationalities has been discovered and broken up. There is now a chance for honest men, including Chinese, of getting what is due them. The members of the complaining family above mentioned say that the stolen property is now in possession of a member of the American Legation, who is about to leave the country. If only a tenth of the charges of murder and robbery made against the foreigners are proved Christians will have cause to blush.

Tung to Escape Death.

Berlin, Feb. 9.—It is reported here on excellent authority the powers will not insist on the infliction of the death penalty upon Gen. Tung Fuh Siang. Dr. Mumm von Schwartzstein, the German minister at Pekin, has been instructed to modify his demands in that respect.

Subsidy Bill Next Week.

Washington, Feb. 9.—The ship subsidy bill will be kept under consideration all of next week in the senate giving way only to appropriation bills. Wednesday the ceremony of counting the electoral vote will occur in the house and the senate wil attend in a body.

In Support of Popular Education.

By act of the Continental congress passed in 1785, one-thirty-sixth part of all the public lands belonging to the United States were set apart perpetually as an endowment for the public schools of the country. Under this and succeeding acts 71,000,000 acres have been granted during the century for the support of public schools, and 1,165,000 acres to universities and colleges.

Mica in Mountains.

Recent explorations of the Uluguru mountains in German East Africa have revealed the presence of deposits of mica. These beds are situated west of Dar-es-Salaam, and contain mica sheets particularly well adapted for electrical purposes.

CARNEGIE GIVES $1,000,000 A MONTH

Retiring Steel Magnate Will Devote His Money and Time to Public Libraries.

New York, Feb. 9.—"I calculate upon $1,000,000 a month for libraries and organs." This is what Andrew Carnegie is telling his friends. It is his means of expressing his intention to devote the major part of the great income upon which he is to retire to public benefactions. He will be in a position to give away $12,000,000 and keep the wolf a considerable distance from the front door of 5 West 51 st street.

That Mr. Carnegie will devote four-fifths of his income to such public gifts as the founding of libraries and presenting organs to communities of musical disposition, is only to be demonstrated, of course, by future events, but the fact is that he has expressed himself recently as expecting to spend about $1,000,000 a month for public benefaction.

Mr. Carnegie's future benefactions may be more varied than those of the past, but all of his friends say that to whatever cause he certainly will not give anything to churches. He is a pronounced foe of sectarianism. The organs will not be church organs.

ENGLAND TO REJECT CANAL TREATY

Senate Amendments to the Hay-Pauncefote Agreement Will Not Be Accepted.

London, Feb. 9.—It has been learned that a reply will shortly be sent to the United States on Nicaragua Canal project. It will not comply with the Senate's demands. Neither will it be in the nature of a flat refusal, though for purpose of immediate construction it will be tantamount to such a refusal.

It will consist, mainly, in a counter proposal, or proposals, likely to necessitate extended negotiations.

The nature of the proposal is not yet ascertainable. Lord Pauncefote will probably be the medium through which the answer will be sent and by whom the subsequent negotiations will be chiefly conducted.

In British official opinion it is likely that several months will elapse before the matter reaches a conclusion, by which time the Hay-Pauncefote treaty will have elapsed on the basis of the senate's amendments.

The British counter proposals are now formulating, and it is hoped that an entirely new agreement satisfactory to both countries will eventually be reached.

EFFECT OF COLORS BETWEEN SEXES

Tell Your Favorite Color and You Will Tell Your Character—Color In Love.

New York, Feb. 9—The color a woman is addicted to in her gown explains her principal peculiarity, according to Miss Madeleine Bruguiere, who lectured at Delmonico's to the Eclectic club.

"Tell your favorite color and you will tell your character," cried Miss Bruguiere, and the women at once looked down apprehensively at their multi-colored garments, fearing that revelations of their inmost thoughts were to be made.

Miss Bruguiere was not telling the club members their fortunes. She was merely addressing them on "Complimentary Colors." She impressed upon them the vital importance of pink chiffon hats in the determining of destiny, and pointed out the subtle, soul like qualities of purple and violet shades.

She even hinted that a merely platonic affair might be turned into the channels of true romance by the simple wearing of the proper color at the proper time by the woman in the case.

Value of Color in Love.

These complimentary colors influence many an event in a woman's life," said Miss Bruguiere. "What man does not recall the color that the woman he loves wore when he first fell in love with her? He may have known her well and seen her often but never until he saw her mentally and physically 'complete' had he felt her poignant influence."

Every wise woman, therefore, should determine exactly her complimentary color and make it a sort of fetich. She should always have a bit of it with her when she wishes to appear her best and to make the deepest impression. Forbearing to look into the hearts of her hearers the speaker proceeded:

"The personal influence of color is a potent factor in human existence. To everyone there is a certain color that appears most forcibly, bringing a soothing sense of well being to the spirit wherever it meets the gaze. If you love pink your mood is brightened by a pink draped room or by passing a window full off pink chiffon hats.

Cheering Effect of Pink.

"The cheering influence of this color is great to tender and sympathetic temperaments, and they, of all persons, need to view life through rose-colored spectacles.

"Green is the color of opening spring, and is therefore the fit symbol of the eternity of hope. Yellow typifies vigorous vitality and a love of light and life. Just as yellow hangings will brighten a dark room, so the sunlight color often brings light in dark moments to the spirit.

"Blue is the color of constancy and truth. When it verges on the green or turquoise shades it indicates a tinge of jealousy and a tendency of domination.

"Violet and orchid tints tend to the poetical temperaments. The ethical délicacy of these colors coincides with the subtle conception of the soul, and these tints range from the purple of passion to the gentle gray of melancholy."

The address was greatly applauded, and each member resolved as she went away not to appear in turquoise at the club's concert at the Waldorf-Astoria Friday night.

Something About Pants.

Pants are made for men, and not for women. Women are made for men and not for pants. When a man pants for a woman and a woman pants for a man, they are a pair of pants. Such pants don't last. Pants are like molasses—they are thinner in hot weather and thicker in cold. Men are often mistaken in pants; such mistakes are breeches of promise. There has been much discussion whether pants is singular or plural. Seems to us when men wear pants it is plural, and when they don't wear any pants it is singular. Men go on a tear in their pants, and it s all right; when the pants go on a tear it is all wrong. If you want to make pants last, make the coat first.

FOR ST. MARY'S CHURCH FUND

Jolly Crowd Listened to an Enjoyable Program Last Night.

It takes more than an ordinary snow storm to keep the people away from an entertainment, which is given for the benefit of St. Mary's church fund. Assembly hall was crowded last evening with a jolly company that listened to an enjoyable program provided by a committee of Fourth ward ladies. The program consisted of tableaux, musical and literary selections which were all well rendered.

The song, "We Need the Cash," by Miss Carrie Reynolds, was the original one composed for the cantata, and dedicated to Rev. Father Goebel.

At the end of the program Rev. Father Goebel gave a nice response to the "Flo(u)wer of the Family," and showed a bag of Jersey Lily flour wh ch was auctioned off and brought $131.

Following the exercises card tables were brought in. Ed. Jerg and Louise Roesling received the first prizes, and Matie Angel and Bert Mahoney the consolation. Games of various kinds were indulged in, and a silver tea set which was raffled off was won by Mrs. Sam Watson. Vogt and Dennis, the musical minstrels, furnished some choice selections.

The Fifth ward ladies will hold a card party at Assembly hall Thursday, February 14, for the same purpose.

MUSICAL-LITERARY ON MONDAY NIGHT

The next meeting of the Musical Literary club will be held at Christ church parish house on Monday evening next. The works of Modern German composers will be studied, and the selections both vocal and instrumental will be from them. The program in full follows:

BELOIT WATERWORKS WILL BE APPRAISED

Under the city ordinance of the City of Beloit an appraisal is being made or the plant of the Beloit Water Works company. The city have under consideration a proposition to purchase the plant of the company and for this reason the appraisal is being made.

The board of appraisers consists of one member chosen by the city, one by the water company and a third chosen by the other two. Mr. Davis of Northhampton, Mass., was chosen by the city, Mr. Kiersted of Kansas City by the water company and Mr. Dunham of New York was chosen for the third. These three will agree upon a price and report the same to the city. There is nothing binding about their eport and the city is at liberty to accept or reject it.

A. A. Jackman of this city is attorney for the Water Works Co., and is looking out for their interests at the appraisal.

AMUSEMENT NOTES.

Mazie Trumbull, the beautiful little soubrette who made a big hit in a prominent New York production two years ago, is making a great success this season in Charles H. Hoyt's most successful farce comedy, "A Brass Monkey." She is playing the part of "Baggage," the daughter of the village Jonah. This piece will be presented in this cty at the Myers Grand next Monday nght for the first time. It is one of the most meritorious and important productions to be seen here this season, and Miss Trumbull's success in the part of "Baggage" will prove of more than passing interest to theater patrons who delight in pure fun.

* * *

A noteworthy bit of character acting is that of Virginia Ross n the second scene of the first act of "The Belle of New York." This scene depicts Pell street in New York city and Misss Ross impersonates a characteristic habitue of this district with exquisite fidelity.

SALES OF REAL ESTATE

Considerable Activity Disclosed—Eight Transfers of $5,000 or Over—One of $17,600,

The subjoined list of real estate transfers which covers the period from Jan. 16 to Feb. 7, would indicate there is quite a little activity in the real estate market. Inspection will reveal the fact that eight of the transfers represent $5,000 or over, the highest being that of Frank Coulter and wife to Archie Reid, $17,600.

It must also be borne in mind that several of the transfers are recorded with only a nominal sum for the consideration, so that the value of the property changing hands is largely in excess of the figures given.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

Hood's Sarsaparilla

Promises to cure and keeps the promise. It is better not to put off treatment —buy Hood's today.

STATE NEWS IN BRIEF.

Ashland—Margaret Roess, aged 3 years, daughter of Mr. and Mrs. Gottriel Roess, was burned to death while playing with burning bark. Her clothes caught fire and in spite of the efforts of her mother the deadly work was done quickly. Mrs. Roess was badly burned in the effort to save her child.

Beaver Dam—Fifteen skilled workmen have arrived here from Omaha to work on the new steel range plant which has moved here from the Nebraska city.

Green Bay—The Business Men's association is considering the proposition of taking $20,000 worth of stock in the Evans School Furnishing company of Chicago, in order to get the concern to move its business to this city.

Kewaunee—John Gillis and Joseph Cravillion are under arrest charged with criminally assaulting Mrs. Kate Vanderstoppen, a widow, 68 years old. The accused are young men and live at Luxemburg.

Appleton—The first month of the new century will go down in history as a record breaker for revivals in Appleton. Never were so many held in one month, and never were better results accomplished.

Marshfield—The W. C. T. U. ladies of Marshfield held a meeting and the society stated that it was not in a position to approve of Mrs. Nation's methods of trying to put down the deadly liquor traffic. Mrs. W. H. Upham, the president, is of the opinion that such methods as reported, work more of an injury to the W. C. T. U. work than they do good.

Monroe—A year ago James C. Ball was divorced and he married Bridget Bliss of Madison. A short time ago he secured legal separation from wife No. 2 and he is now in possession of a marriage license which grants him the right to re-marry his first wife.

Weyauwega—A fine bed of clay has been found near the proposed county asylum site and the brick for the new institution will be manufactured on the ground.

Whtehall—The dam of Larson's flouring mill went out and left without power the mill and the city's light and water plant. It will take several months to repair the damage.

"I had grip three months, could not sleep; pain all over and headache very bad. Dr. Miles' Nervine, Pain Pills and Liver Pills made me well."—Mrs. E. C. Bowlby, Waterloo, Ind.

"Grip robbed me of my sleep and I was nearly crazy with neuralgia and headache. Dr. Miles' Pain Pills and Nervine cured me."—Mrs. Pearl Bush, Holland, Mich.

Curious Verdicts of Juries.

Juries have more than once added to the gayety of cities by their curious verdicts, and the strange decision of a Chelsea jury recently does not stand alone. A Welsh coroner not long ago recorded a verdict on the death of a woman that she "fell into the Glamorganshire canal, whereby she died, and being of unsound mind did kill herself." A Leicester jury was ever more inexplicable. It returned a verdict of "willful murder" against a man, but added a rider to the effect that the jury did not believe he intended to kill the victim. But both these "good twelves and true" must give first place to the jury which arrived at an amazing decision in a case of damages for negligence. The jury found that a man fell downstairs in the dark, but agreed that the darkness was not due to the defendant's negligence. The plaintiff was nevertheless awarded a suitable sum, and it was suggested that the employer should erect a notice warning persons against falling downstairs—presumably in the dark.

Doctors and Midwives Recommend
"Mother's Friend"
because it is used externally in cases of the delicate situation of expectant mothers. It is a constant relief, robbing childbirth of its terrors. Internal remedies are dangerous. "Mother's Friend" is a blessing in a bottle. There is nothing like it.
"No, I've no pain."
"The mother of three children, who suffered greatly in the birth of each, obtained a bottle of 'Mother's Friend' at my drug store before her fourth confinement, and was relieved quickly. All mothers who have used it agree their labor was shorter and less painful." JOHN G. FOLHILL, Macon, Ga.
Sent by express paid on receipt of price, $1 per bottle. Book, "Motherhood," mailed free to ladies, containing sensible advice and testimonials.

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

SELFISHNESS.

The besetting sin of humanity is selfishness. Not self confidence that inspires self reliance, but pure and unadulterated selfishness.

It is apparent in the child before it learns to talk, develops through the years of growth, and matures in man and womanhood.

It belongs to human nature by the right of inheritance, and is frequently so carefully nourished that the stock on hand is always in excess of the demand.

* * *

John and Mary stand at the altar to plight their faith, and commence the journey of life together. They have been acquainted from childhood and think they know each other. Have attended the same school and associated in the same society. Have always been on their best behavior, and the sham side of life has always been on the surface.

During the years of courtship they were on dress parade, and when the engagement ring was put on as a token of contemplated union, Mary was an angel, and John only lacked wings. They planned for the future and built air castles that were models of symmetry and beauty. "Two hearts beat as one," and they knew each other so well that they would never disagree. But their acquaintance was of the most casual sort, as both discovered before the honeymoon was in its last quarter.

* * *

John had never called on his sweetheart before breakfast, when the mother was drudging in the kitchen, while Mary was dreaming through her last morning nap. If he had, and remained to the morning meal, about the time it was well under way, he might have been startled by an apparition, in a loose, down at the heel morning robe, with hair in curl papers or floating down her back.

As she opens the dining room door and catches sight of him, she utters a little scream of fright, and rushes back up stairs. John is startled and says, "Who was that?" and the mother, with ready apology, replies, "Oh, it's only Mary; she's a little late this morning."

* * *

Mary has never had occasion to call on John some morning when he was recovering from a night out with the boys. If she had, she would have found him in negligee attire, with a hat, and a disposition to correspond. Had she attempted to fathom the mystery of his appearance and manner, the problem would have been too deep for her, and the mother's apology, "John isn't very well this morning," would have aroused all of her love and sympathy.

* * *

It is perhaps just as well that the closet ghosts in so many homes are not revealed before marriage. If they were, the lottery of married life would be robbed of its experiences, and some of its population, for it is a fact, generally conceded, that marriage is a lottery, because of the lack of knowledge of each other, on the part of the contracting parties.

* * *

The great stumbling block in the way of happiness in many new homes, as well as in many that have been long established, is the stumbling block of selfishness.

The girl wife has been accustomed to having her own way. With many wants anticipated, and largely free from restraint, she takes up the new responsibilities of wife and womanhood, reluctant to recognize the silent voice of duty, because of the restraint that it imposes.

The boy husband is troubled in much the same way. He has led a free and easy life, with but little restraint and no responsibility. The mother has waited on him and the father has educated him, and the home has been a convenience to which as little time as possible was given. A good time and self-enjoyment has been the watchword, faithfully observed.

* * *

This boy and girl, full of selfishness start out in life together to build a home. They have spent many pleasant evenings at theaters, parties and social gatherings. They have talked of love in the moonlight, and nave even gone so far as to believe that God created them for each other.

That was in the days when love was young and extremely verdant. The sentimental age of gum drops and kisses, when both of them had forgotten more than their ancestors ever knew. The age of emotion, lacking the test of love.

Drop into the home after these young people have been together for a year, in the sacred comradeship of husband and wife.

The first baby has come as an unwelcome stranger, and instead of binding the two lives together, causes them to drift further apart.

They have tired of each other's companionship, and the story of love has become a fable of uncertain origin. The wife is discontented and unhappy, the husband restless and dissatisfied. But the vow has been taken, and they go on into the years, drifting apart because of selfishness.

* * *

The children from this class of homes, and there are many of them, breathe an atmosphere so unwholesome, that they start into life handicapped and crippled.

Happy the home where, very early in its history, the man and the woman learn the important lesson of self-sacrifice. A lesson so freighted with import that no home can be happy without it.

There is no love without sacrifice, whatever may be the professions or pretensions, and the spirit of sacrifice is of Divine origin, and always God-like.

Knowledge of each other is important, before the home is established. But it is very difficult to acquire. The spirit of self-sacrifice is more important and this may be cultivated by the guidance of the Master, to a wonderful degree.

Every home may be a happy home, and every life a happy life, if selfishness is weeded out, and in its place is cultivated the three rare plants of virtue, "Faith, Hope and Charity," not forgetting that "the greatest of these is Charity.

SURPLUS OF MONEY.

Henry Clews, the New York banker, says in his last financial bulletin, that "the New York stock market is an enigma, without precedent." The great activity that has characterized the market during the last three or four months, was regarded with suspicion, and a break, and more or less of a panic was predicted, by conservative operators, but it has not occurred, and the demand for stocks continues, and prices are steadily advancing, with no sign of collapse.

These conditions are accounted for by the abundance of money that is everywhere seeking investment.

All legitimate wants for money are readily met, and many speculative ventures are entertained that would not usually command attention.

It is true that money, in all parts of the country, was never so plenty as at the present time. The balance of trade, which was largely in our favor last year, is steadily increasing, and the year 1901 promises to make a wonderful showing.

This means that the nation is not only increasing heavily in its productions, but that the markets of the world are open to us, to an extent never experenced before.

The situation is an object lesson on the benefits of protection and encouragement to American industries, that ought to be recognized by every American citizen. The "tariff tax" is no longer used as an argument, because money and employment at good wages are so plenty, that everybody is contented. The cost of living has not materially increased, while the opportunities for earning were never so abundant.

Wall street is always recognized as a good barometer of financial conditions, and it never pointed to general prosperity with any more significance than at the present time. The year promises to be the best in the history of the country.

We are glad that the Chinese disturbances have furnished our troops an opportunity to demonstrate to the world at large that not only can they fight as well as European soldiers, but they are not such barbarians as our enemies like to paint.

The more congress studies the army reorganization bill, the more kinks they find in it. It is probable that several amendments will be made to it.

The Dowieites are not waiting for Mrs. Nation to come to Chicago. They are looking out for a sensation of their own.

OBITUARY.

John G. Orcutt, aged 72, died at St. Luke's hospital in Chicago at eight o'clock last evening. Mr. Orcutt was an old resident of Janesville and for many years was engaged in the produce business. He moved to Chicago twenty-five years ago, where he has since resided. His wife died last summer and since her death Mr. Orcutt has been in feeble health and has gradually wasted away until death came to his relief. One son is the only surviving member of the family.

Mr. Orcutt will be remembered by many of the old residents of the city. He possessed many qualities of mind and heart that won friendship, and was active in business circles when the city was young.

N. H. Clarke and Miss Mary Clarke of this city were cousins and Mrs. Orcutt was a sister of Mrs. H. F. Bliss and Silas Hayner.

The remains will be brought to Janesville for interment and a breif service will be held at the grave. The hour has not yet been determined.

MARZLUFF IS FIGURING

Negotiations with Bostwick & Sons to Build a New Factory Are Under Way.

F. M. Marzluff & Co. say that they are figuring with Bostwick & Sons in regard to their erecting a building for them. They will be glad to give Janesville the preference in regard to location providing they can arrange matters so as to compete with Milwaukee.

It is simply a business proposition with them and if they can find it to their interests to remain in this city they will certainly do so, but if the advantages offered by Milwaukee can not be equalled in Janesville they will go to Milwaukee.

This is a matter that cannot be settled in a minute and they are carefully investigating every plan that will tend to benefit their business.

WILL TRY FOR NEW LIBRARY BUILDING

Andrew Carnegie Will Expend $1,000,000 Monthly.

LIBRARIES AND ORGANS

Movement on Foot to Induce Him to Furnish Building for Janesville.

DIRECTORS FAVOR PROJECT

Andrew Carnegie, the multi-millionaire steel king, has sold out his business for the modest sum of $130,000,000 and now will retire from active life and enjoy the fruits of his toil.

A conservative estimate places his income of $15,000,000 three millions of which he will reserve for his own use and the remaining twelve he will expend for libraries in communities possessing such tastes and with no way of gratifying them. His intention is to spend at the regular rate of $1,000,000 per month.

Mr. Carnegie is just the man that Janesville has been seeking and there is no other city to which he could donate the funds for a library building where the need is any greater than here. We have a good library which has outgrown its present accommodations and is badly crippled for room.

It was placed in its present position as a makeshift in hopes that in the early future it might be housed in a pernament home of its own. While a number of plans have been suggested looking toward that end the board of directors has never been in a position to take any definite steps.

The library now has an annual appropriation of $3,000 from the city. This covers rent, heating, lighting, salaries, etc., by close figuring. While hardly adequate it is all that the city can afford to pay. It needs a fairy god mother to come to the front with from $35,000 to $50,000 and from then on it would be plain sailing. If Mr. Carnegie stands willing to do the fairy godmother act there is no doubt but what Janesville will gladly do the rest.

Mr. Carnegie is deeply interested in libraries as all intelligent people should be. There is no better way to use his vast wealth than in the course that he is now pursuing and there is absolutely no reason why he should not be willing to extend a helping hand to our city.

The local library has passed the experimental stage. It is now a fixed fact in the life of the city and will continue to exist with outside help or not.

On the other hand it must be remembered that it has no source of revenue outside the city appropriation and the occasional fines which will not aggregate $35 a year. The city grows steadily. The library cannot grow symmetrically for it is now too big for its shell.

Aside from its limited size the present location has several drawbacks. First, it is hard to find. A stranger coming into the city would never find it without seeking diligently. Again in the summer it is so intolerably hot from the lack of means of ventilation that it is practically unavailable.

What it needs is a commodious, handsome building that will be an ornament to the city where comfortable, quiet, well-equipped reading rooms apart from the library proper may be maintained.

People from the country would then find and make use of its advantages as now they do not.

A few members of the board of directors were seen today and they expressed enthusiasm and now stand ready to extend any assistance that can be rendered.

Now, the question arises what is the first step? How may the matter be set before Mr. Carnegie in so alluring a guise that he will be willing to respond? Of course a concerted effort must be made and the best skill of the city called into requisition. There is everything to win and nothing to lose and certainly the possible end justifies any reasonable exertion.

The last day for paying the state their share of the tax is Monday, Feb. 11. At that time City Treasurer Fathers will pay to the state treasurer the sum of $10,457.56. March 1 is the last day for the payment to the county of their share of the tax.

SOMETHING MUST BE DONE AT ONCE

Canning Factory Bonus is Still Some Hundred Dollars Shy—There is a Time Limit.

If Janesville wants the canning factory something must be done at once to raise the balance of the fund necessary to secure the industry.

The committee in charge of the matter have been hard at work for the last three days and although they have secured some additional subscriptions they are still some hundreds of dollars shy of the required amount.

They have a limited time in which to get the money subscribed in order to tell the promoters to come on and close up the deal. If this cannot be secured the project will have to be abandoned.

A large amount of hard work has been done by the committee in this matter and it would be too bad to have the enterprise go down for the lack of the small sum now necessary to make up the required amount.

There are a good many people in the city that the committee have not been able to see who would give a small amount toward the bonus if solicited. It would help the plan very much if they would call at the Bower City Bank and sign the subscription paper. They will be pleased to accept any subscription if it is small.

Two Traction Engines at Work.

Two traction engines have been placed on the premises of Thoroughgood & Co., to furnish power for his light work, while a new boiler is being put in place. This change will necessitate the shutting down of their lumber department until the change is made. It is their intention to put in machinery for making basswood siding, an article now largely used in building. The proposed addition to their machinery will greatly increase the efficiency of the plant.

The Imperial Band will play at the Palace rink tonight.

NEWS OF A PERSONAL NATURE

W. A. Jackson, Edwin Fifield, J. F. Sweeney and B. H. Baldwin are in Milwaukee, attending the grand lodge of B. P. O. E.

E. W. Lowell leaves Monday for New Orleans, La., and from there will probably take a boat to Cuba and other interesting places. This is the first vacation Mr. Lowell has had in ten years, and the relaxation from business cares is well earned.

FUNERAL SERVICES OF MRS. CUNNINGHAM

A Large Number of Members of Local Bar Present—Many Friends From Out of Town.

The funeral services over the late Mrs. J. J. Cunnigham were held at St. Patrick's church where Dean McGinnity officiated assisted by Rev. J. J. Collins. A large concourse of sympathizing friends was present. The bar of the city while not attending in a body was liberally represented. The floral offerings were beautiful and numerous.

The pall bearers consisted of four brothers of Mr. Cunningham, T. F. Cunningham and M. J. Cunningham of Chicago, and M. A. and J. B. Cunningham of this city and a borther and an old friend of the deceased—Harry Langworthy of Fulton and Frank Brace.

Aside from those already mentioned a number of friends and relatives from out of town were present. Among them were Mr. and Mrs. Charles Culton, Mr. and Mrs. Langworthy, Mr. and Mrs. Wentworth and H. Whittaker of Edgerton and James Carroll of South Wayne.

Funeral of Mrs. Daly

The funeral of the late Mrs. Patrick Daly was held from St. Mary's church this afternoon at 2:30 o'clock and was largely attended by relatives and friends. Many handsome floral offerings were made. The interment was at Mt. Olivet cemetery.

FARMERS SELLING THE RIGHT OF WAY

Mr. A. C. Powers Busy Securing the Track Line of Proposed New Electric Railway.

Supervisor A. C. Powers of Beloit is in the city today engaged in his work of securing options from the farmers for a right of way across their farms along the line of the proposed electric road between this city and Beloit.

Mr. Powers states that he has secured options on over half of the farms along the proposed route and thought that there would be no trouble getting an option on the balance.

He expected to meet the members of the town board of Rock here today and secure a franchise from them across tshe township. He would have to secure this franchise before the line could be built across the roads on its line.

It is the intentoin now of the projectors of the line to have it come into this city near the old Burr Robbins farm, but it may swing off from the road at the top of the hill near the Hughes place and come in by the Choate-Hollister factory and also near the site of the proposed canning factory. It would connect with the Janesville street railway near the power house.

Mr. Powers thinks that the road is an asssured thing and the farmers along the line have already advanced the price of their lands.

RAILROAD PEOPLE OPPOSE HALL BILLS

Delegation Arrived in City Today On a Special Train and Conferred With Business Men.

A. C. Bird of Milwaukee, third vice president of the Chicago, Milwaukee & St. Paul road, accompanied by Louis Jackson, industrial commisssioner of the road, arrived in this city last night. These gentlemen are making a tour of the different divisions of the road and stopping in all of the principal towns, for the purpose of interviewing the leading merchants, manufacturers and business men in regard to the Hall bill relating to railroads now before the legislature.

These gentlemen were at Racine yesterday morning and at Beloit yesterday afternoon and interviewed the business men in those cities. This morning they held a meeting in this city in their car at the St. Paul passenger depot, which was attended by a number of our leading men. They explained the object of their visit to this city and explained many of things which might not come to their attention from reading the bill.

It was decided by the gentlemen present that they would secure copies of the bill and a meeting for its discussion will be held by them on Monday night at George G. Sutherland's office. Hon. John Thoroughgood has taken the matter up and will call the meeting for this time.

It is considered by many of those interested in the matter that the bill is certainy detrimental to the manufacturing interests of the state.

The business men of the city have not as yet decided on any opinion in regard to the matter, but will decide at their meeting on Monday evening what is the best plan to pursue in the matter.

Vice President Bird and Commissioner Johnson left at 11:30 for Edgerton, Stoughton and Madison where they will meet the business men of those places and talk to them in regard to the bill. Messrs. Bird and Jackson are thoroughly acquainted with the points under controversy, not only from a railroad but from a manufacturer's standpoint.

Their special train was in charge of Conductor George Prescott, one of the oldest conductors of the St. Paul system.

SUBSIDY NEAR ITS DEATH.

Armistice Declared in Fight in Senate.

NIGHT SESSION GIVEN UP.

General Opinion That the Subsidy Bill Is Dead — President Presents Many Names to the Senate for Promotion—Filling Minor Positions.

Washington, D. C., Feb. 9.—An armistice has been declared in the subsidy fight in the senate. Night sessions have been abandoned and hostilities will be suspended for twenty-four hours or longer to permit the opposition to decide whether the bill shall be voted on. Mr. Frye (Me.), who is leading the subsidy forces, made a statement in the senate appealing to the opposition to permit the measure to be disposed of. Senator Jones (Ark.), the leader of the Democratic side, was in a happy frame of mind, as a test vote had developed a division in the Republican party, showing ten Republicans opposed to the measure. He was not prepared to announce the willingness of the opposition to vote upon the bill, but had no objection that it should be laid aside temporarily. He has been making a canvass of the opposition and will be ready whenever the supporters of the bill again raise the question to announce the policy of the opposition. It is the general opinion that the subsidy bill is dead. Senator Mason of Chicago and several other senators who favor it frankly expressed the belief that it could not be passed.

Labor and the Anti-Trust Bill.

There was a prolonged and heated meeting of the senate committee of the judiciary over the anti-trust bill passed by the house. Mr. Hoar (Mass.), the chairman, sought to substitute a brief paragraph to the effect that labor organizations should be exempted from the provisions of the Sherman anti-trust law. This provoked an animated, and at times, personal discussion, participated in by Senators Teller, Hoar, Bacon and Platt (Conn.). Mr. Teller charged the Republicans with unwillingness to enact any legislation that would benefit the masses, especially the laboring classes, and denounced the failure of the committee to act favorably upon the bill it had under consideration. No conclusion could be reached, and the bill will again be taken up.

Mr. McCormick to Be Named.

Senator Mason called upon the president and the president called his attention to the candidacy of Robert S. McCormick of Chicago for the Austrian mission. The president explained that Senator Cullom had given it his indorsement and stated that he would make the appointment provided Senator Mason had no objection. Mr. Mason promptly informed the president that he is not opposed, and therefore expects the nomination to be sent to the senate within the next few days.

Another List from McKinley.

The president sent a long list of nominations to the senate, among them the following: George P. Bennett, register of the land office at Rapid City, S. D.; George D. Corson of Illinois, to be agent for the Indians of the San Carlos agency, Arizona. Army, ordnance department—To be lieutenant-colonel, Maj. John G. Butler. Infantry—Captains to be majors: William Paulding, 10th; Lorenzo W. Cooks, 3d; Francis E. Elton Head, 21st. Cavalry—First lieutenants to be captains: Selah R. H. Rompkins, 7th; Sedgwick, Rice, 7th; Arthur Thayer, 3d; John T. Haynes, 5th; Cecil Stewart, 4th; Floyd W. Harris, 4th; John T. Nance, 6th; Charles C. Walcutt, Jr., 8th; John J. Pershing, 10th; Peter E. Troub, 1st.

New York, Feb. 9.—Stricken with apoplexy at a meeting of the board of directors of the Eleventh Ward bank on Tuesday, David Hunter McAlpin, millionaire tobacco manufacturer and philanthropist, was taken to his home, unconscious, by his son, Gen. Edwin A. McAlpin. He has not regained consciousness and at a consultation of physicians just held no hope was held out to family and friends.

Offers Money for Library.

Tacoma, Wash., Feb. 9.—Andrew Carnegie has offered to give the city of Tacoma $50,000 for a library building on condition that a site be furnished and $5,000 yearly spent in maintenance. The city has accepted the gift. It is probable, however, that the amount will be increased to $75,000, as the city is willing to pay $7,500 annually towards keeping up the library.

Verdict for Rev. Mr. Spink.

London, Feb. 9.—In the king's bench division of the High Court of Justice a verdict was rendered in favor of the Rev. Bernard Spink, who was sued for libel by the Rev. Tuberville Cory Thomas of Chicago, formerly a pastor at Ishpeming, Mich., but a resident of England since 1897.

Two Freeze to Death.

Oshkosh, Wis., Feb. 9.—Gustave Hartman and 11-year-old son are dead as the result of cold and exposure consequent upon breaking through the ice at Lake Butte des Morts.

CAUSE OF BOXER WAR.

Gen. Wilson Says It Was Started by Foreign Trade Competition.

New York, Feb. 9.—At a meeting of the chamber of commerce General James H. Wilson, upon the invitation of the executive committee, made an interesting address on the subject "American Interests in China." President Jesup introduced General Wilson who said: "There are many interesting aspects in which we may look at the crisis in China. The whole of the progress of China from the time of its first visitation by Europeans down to the present time has clustered around and been promoted by trade and commerce. It has been broken in upon by wars, but each one of these wars, not excepting the infamous opium war, had its origin in the commercial spirit and in the determination of foreigners to force trade upon China.

"The present war, the Boxer revolution, in a measure, may have been also due to the same cause and to the same pressure.

"There is going to be a settlement of these difficulties and that settlement is going to be exactly what the foreign powers agree among themselves they are going to demand; for the Chinese are going to yield exactly what is asked of them and if all hands agree they will get exactly what will be asked.

"In my judgment the whole of China is now open and will be open for commerce because the first proposition that the nations will lay down, after they have settled the indemnity for the past trouble, will be a demand of assurance that there are to be no troubles in the future and perfect freedom of trade.

"We being the closest of all the nations to China, with a straight route over, there is no reason in the world why with the open door for which our administration is standing so strenuously—and nobody will dare to close it in our faces—the United States should not have a greater advantage than any other nation will get by the changes that will take place in China."

Quarrymen's Strike Ended.

Youngstown, O., Feb. 9.—The strike of the limestone quarrymen in the eastern part of this county and western Pennsylvania has been settled, the operators reconsidering their announcement of a reduction of from 20 cents to 17½ cents a ton. The orders to furnaces being so great, the operators decided that they wanted no strike and work will be resumed in full. More than 2,000 men are interested.

Wrecked in a Snowshed.

Truckee, Cal., Feb. 9.—Spreading of the rails in the snowsheds just east of Blue Canyon caused the wrecking of a freight train last night. Several cars were piled up, some of them being thrown to the bottom of the hill and demolished. The snowshed was torn up for a distance of 300 feet. The Atlantic express had passed the point but a few minutes before the wreck occurred.

Indians and Full Citizenship.

Indians occupying reservations in New York state look with anything but favor on the proposal to make them full citizens of the republic. One chief denounces the plan as "a scheme for plunder and extermination."

To Mothers of Larga Families.

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

Mrs. Pinkham makes a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid.

To women, young or old, rich or poor, Mrs. Pinkham, of Lynn, Mass., extends her invitation of free advice. Oh, women! do not let your lives be sacrificed when a word from Mrs. Pinkham, at the first approach of

weakness, may fill your future years with healthy joy.

"When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to Mrs. Pinkham's advice and medicine I am now well, and can do the work for eight in the family.

"I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—MRS. CARRIE BELLEVILLE, Ludington, Mich.

MRS. NATION IS APPLAUDED

Says That Every "Joint" Will Be Smashed.

SHE SPEAKS IN KANSAS CITY.

Declares She Will Not Molest the "Joints" of Large Cities, Not Proposing to "Bite Off More Than She Can Chew"—White Feather at Topeka.

Kansas City, Mo., Feb. 9.—Mrs. Carrie Nation, the Kansas "joint smasher," attended by a delegation of Topeka supporters and admirers, last night addressed a fair-sized audience at the Academy of Music. F. W. Emerson, pastor of the First Christian church of Topeka, introduced Mrs. Nation as "the bravest and noblest woman in Kansas," whereupon the audience gave three rousing cheers for her. Before beginning her address Mrs. Nation requested the audience to rise and sing "Praise God, from Whom All Blessings Flow." She made a characteristic talk and the audience enjoyed it and appeared to be in sympathy with her. She said she had just as much right to destroy the "joints" of Missouri as she had to destroy those of Kansas. She based this assertion upon the clause in the constitution of the United States that insures to every citizen the right to "peace, prosperity and the pursuit of happiness." She said the liquor traffic was a menace to that right and that every "joint" in the United States would be smashed. She declared she would not molest the "joints" of Kansas City, Mo., because it is too large a city. "I don't propose to bite off more than I can chew," she said.

Would Harass Mrs. Nation with Rats

Des Moines, Iowa, Feb. 9.—E. Romani, a saloonkeeper at 116 4th street, has acquired fifty rats and mice which he expects to use as a reception committee if Mrs. Carrie Nation calls on him with her hatchet. She arrives at noon Monday, and Romani's saloon is next door to the depot. He has spent the last week collecting the rats with which to combat the woman if she tries her hatchet on his place. The Bartenders' union of the city claims to have employed a band to meet Mrs. Nation at the depot and escort her carriage to the hotel with music.

MAN A PARADOX.

Incidents That Go to Prove the Truth of the Foregoing.

Being a man who does more thinking than talking and who is generally regarded as taciturn, his family were rather surprised when he laid down a standard magazine of the day and proceeded with a talk that suggested the propriety of his being on a platform. "I am no rose-water sentimentalist. I never allowed my heart to run away with my head. I have an individual entity as clearly defined as that of any man. I know how to reason and I'm not afraid of my conclusion. I'm dead set against anarchy, socialism, communism and the whole nest of kindred vipers." That was his exordium, says the Detroit Free Press. "But I've been reading an article here that just meets my views. I have what they call the money making faculty and have always prospered. But I believe with this writer that we should be more liberal with men and women who are not thus favored. When they work for us, share with them. Give them a good, generous show. Live and let live, those are my sentiments." "I feel the same way," ventured his wife. "This very afternoon I raised the girl's wages 75 cents a week." "You did? Well, that's a pretty howdy-do. Funny you wouldn't make it a couple of dollars more. You must think that I find money or have it sent to me by the government. I've been telling for years how thrifty and economical you were. Guess you must have lost your grip. You've got to get even with that girl by charging her up with all time lost, everything wasted, broken dishes and the use of the sewing machine. I'm no national bank." Then he was called to the kitchen by the man who put up the storm door. There was a war of words because the man wanted a dollar and the head of the house stuck at 50 cents. After they had split the difference and jawed as long as they could hear each other, the husband and father seized the book he had been reading, flung it into the corner and went to bed three hours before his usual time.

Smashes a Saloon Front.

Auburn, Ind., Feb. 9.—The Mrs. Nation saloon-smashing crusade has reached Indiana, and one little woman, Mrs. Tom Creal, whose husband is foreman in the Baltimore & Ohio shops at Garrett, completely demolished the handsome new plate glass front of Peter Behler's saloon. A hatchet was used to do the work, and after breaking in the front Mrs. Creal entered and secured a beer bottle, which was the last weapon used. She had repeatedly warned Behler not to sell to her husband.

"My heart was badly affected by an attack of grip and I suffered intense agony until I began taking Dr. Miles' Heart Cure. It made me a well man."—S. D. Holman, Irasburg, Vt.

Details of Baku Fire.

St. Petersburg, Feb. 9.—Dispatches from Baku say all the available hospitals are filled with people injured by the naphtha fire, while the sheds on the fair grounds are filled by those made homeless by the fire. Advices from Baku today announce that the fire has been extinguished. Ten factories and five depots were burned, containing altogether 35,000,000 pounds of naphtha and naphtha refuse. It is estimated that the losses will exceed 6,000,000 rubles. Nine charred corpses have been recovered. One hundred and sixty persons were injured by burning, forty-one of them severely, and six have succumbed to their injuries. Many victims are still under the ruins, and the search is proceeding. It is not known how many of the spectators perished, but a hundred persons are still missing.

Big Liner Is Disabled.

New York, Feb. 9.—Ice-clad and limping in on one foot, the mammoth liner Fuerst Bismarck of the Hamburg American Mediterranean service tied up to its Hoboken pier thirty-six hours late. Eight hundred miles eastward from Sandy Hook the crank shaft of the starboard engine snapped. That was last Monday night. Since then the liner has come through on the port engine at thirteen knots an hour instead of fourteen, and the winter gales and heavy seas helped to hold back the liner. Among the passengers were the millionaire Levi Z. Leiter and Miss Nannie Leiter of Chicago.

Destructive Fire at Omaha.

Omaha, Neb., Feb. 9.—Fire started in the power house of the Omaha Street Railway company at 20th and Harney streets. The Methodist hospital adjoins the building on the south, and was filled with patients. Many were hurriedly removed to neighboring residences. Two typhoid fever patients removed from the hospital are in a critical condition, but may recover. The Methodist hospital was saved.

F. G. C. Brand, the Horseman, Dead.

Milwaukee, Wis., Feb. 9.—Fred G. C. Brand is dead, aged 71. He was the proprietor of the National Park race track and hotel, and owned a string of trotters which made his name familiar on most of the tracks in the country. When he came here in 1865 he taught school and was an organist and choir leader of renown. He got rich off paving contracts. He was prominent in the Gentleman's Driving club.

England Rejects Canal Treaty.

London, Feb. 9.—It has been learned that a reply will shortly be sent to the United States Nicaragua Canal project. It will not comply with the Senate's demands. Neither will it be in the nature of a flat refusal, though for purpose of immediate construction it will be tantamount to such a refusal. It will consist, mainly, in a counter proposal, or proposals, likely to necessitate extended negotiations.

Brady Drops Manager Fight.

Cincinnati, Feb. 9.—The mission of William A. Brady, Jeffries' manager, is not as an aid in the effort to pull off the big fight, but to prepare the champion to start at once on the road with his theatrical company. Everything points to a belief on Brady's part that the fight cannot take place.

Negro Wins First Honors.

Indianapolis, Ind., Feb. 9.—At the annual intercollegiate oratorical contest between Indiana institutions last night W. O. Tyler, a colored man from Indiana University, took the first honors with his oration on "The Middle West." Earl was second and Depauw third. Seven colleges contested.

TO CURE THE GRIP.

Advice of a Famous Physician.

First and foremost, rest.

Take care of yourself. Your already weakened nerves want rest, and must have it. If the attack is severe go to bed and remain there. More fatalities result from neglect of this precaution than form any other cause.

Eat sparingly. Your digestive organs are in no condition to take care of the large quantities of food.

Drink plenty of pure cold water. It alays the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nerve and Liver Pills.

Take three doses of Dr. Miles' Nervine per day, and if you cannot sleep take an extra dose at bed time. Chandler's Activity in New Hampshire.

It is intimated by close friends of Senator Chandler of New Hampshire, who was defeated in his recent contest for re-election that he intends to wage war against the Boston and Maine railroad domination in his state. He may be a candidate for governor on an anti-railroad ticket.

"I had been in bed three weeks with grip when my husband brought me Dr. Miles' Nervine, Pain Pills and Nerve and Liver Pills. I was cured." Mrs. J. Reinier. Franklin, Ind.

"Failing to find relief from the grip with old methods, I took Dr. Miles' Pain Pills, Nervine and Nerve and Liver Pills and was permanently cured."—Gust. Egan, Jackson, Mich.

A PITHY STATEMENT.

Mr. Smith Gives An Apt Illustration.

His Views On Vinol Worth Learning.

This Is The Preparation That Is Being Much Talked About.

A reporter asked Mr. Smith the same question that hundreds have asked him in the last few days. "Just tell me precisely, please, why Vinol is better than cod liver oil?"

Mr. Smith replied in his genial way, "You have given me a rather difficult task. I can explain to you in a few minuntes the advantages of Vinol, but to do it in a half dozen words would hardly be possible. Perhaps I can illustrate its value, however, in a brief manner. Suppose you had never seen a hen's egg. A man who knew of them should tell you to eat three every day. I do not say that you would, mind you, but I am inclined to think at the start you would make an heroic effort to get away with the whole thing, shell and all. The meat of the egg would be what you needed, the shell rather superfluous. In fact as a matter of nourishment not quite the thing for your stomach.

There you are with cod liver oil. In it you have a medicine known to be valuable for certain forms of wasting disease, a great reconstructor. Doctors have administered it for years. They were like the man who had never seen an egg before. They gave it to their patients just as they found it, shell and all. Yes, that is exactly it. The grease was useless, and as bad for the stomach, almost, as would have been the shell of the egg. The kernel, or the meat of the remedy, the vital principles that they were after, were contained in it. Science has stepped in and done exactly what the man with the egg might have done—found a way to separate the healthful interior from the worthless husk.

"Now we have the active medical principles of the cod's liver. We have thrown away the useless encumbrances that formerly encloaked it, namely, the objectionable fat. We have taken ths extract, placed it in a delicious table wine, and there you are. Patients who have needed cod liver oil and could not take it have no trouble in taking Vinol. Why you would enjoy drinking it yourself, so pleasant is it, if I did not tell you it was anything but a mild table wine. If you needed it, however, for a medicine, you would soon find it to be something different. The medicinal properties of the cod's liver heal damage done by diseases that are of a wastng nature, and the same principles give strength to the weakened digestion and enable the poor sufferer's worn out stomach to digest and obtain nutriment from everyday food. These same principles are also active disease germ annihilators.

"Yes, I am glad to have you come any time that you care to learn anything more about Vinol. It has already proved itself to be a winner."

DOINGS OF THE LAW MAKERS.

ILLINOIS.

Friday, February 8.

The demands of the state institutions this session are simply enormous, being far in excess of those of any previous year. The Peoria asylum, known as Bartonville, wants $900,000 for the completion of the plant and its maintenance for the two years. There is a proposition before the legislature looking toward the establishment of a state farm for epileptics, such as some of the eastern states have. This involves an expenditure of about $300,000. If such an institution be created, however, it would diminish the expenditures of the insane asylum by taking the epileptics away from their care. Every state institution appears to want more money than ever before. Governor Yates is giving this matter a good deal of attention. He had a long conference today with Senator Chapman, chairman of the state appropriation committee, on the subject of state expenses. He wants to do everything in his power to avoid an excessive tax rate. He always has expressed himself, in public and private, as being in favor of all reasonable demands looking toward the proper care of the dependents of the state. However, he will oppose unwarranted extravagance.

INDIANA.

Friday, February 8.

The senate, by a strict party vote, decided to make the investigation of the Indiana reformatory secret. The valued policy insurance bill was considered favorably by the senate. Senator Dausman has introduced a bill to revolutionize criminal trials. Under it the jury is to be the final authority, and is to answer, first, did the prisoner commit the crime charged? and, second, can he be permitted to go free without peril to the state? If not, he is to receive an indeterminate sentence of from one to ninety-nine years, but may be paroled after one year. Colonel Eli Ritter, the leader of the temperance movemnt in Indiana, threw a wet blanket on all temperance legislation by urging the committees not to recommend any laws whatever. He wanted the authorities to enforce the present laws. In the house, all anti-trust bills introduced by the Democrats have been killed. The Republicans will handle this matter to suit themselves.

MICHIGAN.

Friday, February 8.

The insurance companies are coming in for their usual share of attention from the legislature, the latest bill of importance to be introduced being one offered by Representative McCall to increase the tax rate of foreign life insurance companies from 2 to 3 per cent. Representative Dingley has given notice of bills to make the Australian ballot a feature of all primarary elections in the state, and Representative Bauman has a measure which provides that before any franchise granting the use of public streets or alleys becomes effective it shall be indorsed by a majority of the electors of the municipality affected at a general election. A bill prohibiting the wearing of buttons of the Grand Army and Loyal Legion by persons not members in good standing of those orders was also presented.

Recoveries From Grip.

Mrs. E. I. Masters, at her home in Monitor, Ind., used Dr. Miles' Nervine and Pills to cure after effects of grip.

Mrs. A. E. Lopeer, in the little town of Modelia, Minn., used Dr. Miles' Pain Pills and Nerve and Liver Pills and was well in a few days.

President McKinley is slowly recovering from grip and its after effects.

George J. Flannery was relieved of the awful pains in his head in fifteen minutes, by the use of Dr. Miles' Pain Pills. Now he is rapidly recovering at his home in Buffalo, N. Y.

Speaker Henderson is again in his chair in the House of Representatives after a severe attack oof the grip.

J. C. Helfrey, foreman of the Westinghouse factory in East Pittsburg, had a severe attack of grip, but he used Dr. Miles' Nervine and Pain Pills and was soon back in his place.

Rev. C. Body was in a serious condition at his home in St. Paris, O., but Dr. Miles' Nervine and Nerve and Liver Pills pulled him through all right.

The Haunted Well

"The best hoax that ever was perpetrated," said an old pioneer of Herkimer county, "was in the town of Warren, where I was born and brought up. It was worked so long ago that I will not try to set a date for it. R. R. Treadway and Elias Warner, farmhands of Foster Nobles, were the originators of what became known as the haunted or talking well. They made a good sell out of whole cloth, and the people everywhere were taken in by it.

"The Nobles farm was some distance from their own homes. They carried their dinners while at work in the field and one day sat down to eat at an old well which had pump logs leading from it to the trough. They observed that the water did not run from the logs, and they tried the experiment of talking into the logs at the trough. Their words were conveyed from the trough so perfectly that they appeared to come from the well itself. Then they decided to play a joke on their comrades.

"They had excellent foundation for a good ghost story. In the preceding winter John Wick, who had gone with his neighbors to Albany with wheat disappeared. They had disposed of their loads and had covered about a mile of their homeward journey when Wick discovered he had forgotten some of his purchases and returned for them, saying that he would soon overtake his friends. He was never seen again. His team was found under a shed, but no trace of him was ever discovered.

"As the Wick incident made a deep impression on the minds of all in their neighborhood it was decided to use the spirit of John Wick in the hoax. Warner was to tell the boys that he had heard the spirit that day at the well.

"That night there was a meeting of the members of the band for practice, and Warner, who was one of the musicians, told the others the story agreed upon, that when he tried to draw water from the well as the bucket struck the water the spirit of John Wick cried out:

"'Take the stone off my head!'

"The musicians after practice accompanied Warner to the well. Many approached to the side of the well, but the more timid remained at a safe distance. Isaac Lake, one of the boldest, stood with his hands on the curb and leaned his head over to catch the first sound from the spirit.

"Warner tied a red handkerchief around his head, and Treadway lay in the trough to do the talking when the signal was given. Warner lowered the pail into the water, and as it struck the water the words came in sepulchral tones from the well:

"'Take that stone off my head!'

"The band of musicians fled. An ox was lying a little distance from the well, when the commotion startled him. He was in the act of rising when Lake reached him, and Lake, in his anxiety to put a safe distance between the haunted well and himself, sprang completely over the ox lengthwise without stopping.

"Being fleet of foot, he arrived home sooner than any of the others except David Starkweather, who was on horseback. David, on his arrival, hurriedly turned his horse, saddled and bridled, into a wheatfield. He was so badly frightened that he did not know what he was doing.

"The news spread through the neighborhood rapidly, and the next night there was a crowd around the well to hear the spirit talk. There were old and young people of both sexes. Treadway resumed his place in the trough, and Warner was the medium to communicate to the spirit.

"He wore a red sash about his loins and a handkerchief of the same color around his head. With a pole as his wand he troubled the waters in the well, and the response came forth, 'Take the stone off my head!'

"Soon the neighborhood no longer confined the story to the haunted well. People from miles around congregated each night at the side of the well, and finally the deacons of several churches assembled in solemn conclave, with Deacon Warren Wick as the leader.

"They knelt around the well, and Deacon Wick addressed the throne of grace in such a stentorian voice that he could be heard for half a mile. At the end of the prayer they arose, and Warner troubled the water with his wand. 'Take the stone off my head!' came forth, as usual.

"Deacon Wick then demanded in a loud voice, 'In the name of God and the archangel, who are you?'

"'The spirit of John Wick,' was the solemn reply.

"'How came you there?' asked the deacon.

"'I was murdered and put here.'

"It was resolved to dig into the well the next night, and the folks were on hand with shovels and picks and bars to carry their resolution into effect and remove the stone from the head of the murdered man. The boys then thought that they had carried the joke far enough and told the truth about the affair, greatly to the indignation and chagrin of their credulous dupes.

"Many of the people there were superstitious and believers in witchcraft. In the midst of the excitement, as a Mr. Skinner was taking a load of people to view the wonder, his horses were 'bewitched' while they were descending a steep hill, and in spite of coaxing and whipping they would not stir until after the performance at the well was over."—St. Louis Star.

A Novel Spider Collection.

A Belgian teacher of natural history gives an account of an experiment made by him to test the abilities of children as collectors. The result was simply astounding. The teacher asked a boy to collect all the different kinds of spiders that he might see during his vacation rambles.

The lad, who evidently did not share the absurd fear which most persons have of these harmless and useful creatures, accepted the task with alacrity, and for weeks he scoured the country round about his home for spiders, going about three miles in every direction.

He brought back to school more than 100 species, of which no less than ten had never been supposed to exist in Belgium despite the careful explorations of Professor Becker of Brussels, who is famous as a collector of spiders.

The little collection that he made in so remarkable a manner is a highly prized addition to the cabinet of his school.

HERE IS HEALTH

For all who have Weak Lungs

EDITOR'S NOTE—The Slocum System is medicine reduced to an exact science by the world's foremost specialists, and our readers are urged to take advantage of Dr. Slocum's generous offer.

THESE FOUR REMEDIES

Represent a new system of treatment and cure, for the weak and for those suffering from CONSUMPTION, wasting diseases or inflammatory conditions of the nose, throat, and lungs.

The treatment is free. You have only to write to obtain it.

Its efficiency is explained as simply as possible below.

By the new system devised by DR. T. A. SLOCUM, the great specialist in pulmonary and kindred diseases, all the requirements of the sick body are supplied by the FOUR remedies constituting his Special Treatment known as the Slocum System.

Whatever your disease one or more of these four preparations will be of benefit to you.

According to the needs of your case, fully explained in the Treatise given free with the free medicine, you may take one, or any two, or three, or all four, in combination.

A cure is certain if the simple directions are followed.

The remedies are especially adapted for those who suffer from grip, weak lungs; coughs, sore throat, catarrh, CONSUMPTION, and other pulmonary troubles.

But they are also of wonderful efficacy in the upbuilding of weak systems, in purifying the blood, making flesh, and restoring to weak, sallow people vigorous and healthy constitutions.

The many ailments of women and delicate children are speedily relieved.

The basis of the entire System is a flesh-building, nerve ann tissue-renewing food.

Every invalid and sick person needs strength. This food gives it.

Many people get the complete system for the sake of th Emulsion of Cod Liver Oil, which they themselves need, and give away the other three preparations to their friends.

The second article is a tonic. It is good for weak, thin, dyspeptic, nervous people, for those who have no appetite, who need bracing up.

Thousands take only the Emulsion and the Tonic.

The third preparation is a medicinal healing cream, in patent Ozojell nasal tubes. It cures catarrh. It heals all irritation of the nose, throat and mucous membranes. It gives immediate relief. It is also a dainty application for sore lips, chapped hands, cold sores, rough skin, etc.

Perhaps many thousands of our readers need the Ozojell Cure for Catarrh without any of the other articles.

The fourth article is an Expectorant and Cough Cure. Can positively be relied upon. Is absolutely safe for children, goes to the very root of the trouble, and not merely alleviates, but cures.

The four preparations form a panoply of strength against desease in whatever shape it may attack you.

WRITE FOR FREE TRIAL.

To obtain these FOUR preparations, illustrated above, that have never yet failed to cure, all you have to do is to write to

DR. T A. SLOCUM, 98 Pine St., New York.

giving your address. The four remedies will then be sent you direct from laboratories. When writing the doctor ease tell him you have read this in the Janesville Gazette, and greatly oblige.

WINE OF CARDUI

A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.

No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.

MRS. GRACE LAMPHERE.

McELREE'S Wine of Cardui

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles".

PLAN A MASONIC HOME

Eastern Star is Collecting a Considerable Sum, But Must Have Help from Men's Orders.

The most important question to come up at the annual meeting of the Wisconsin Grand Lodge of the Eastern Star, Feb. 20, at Milwaukee, will be that of establishing a home for members of the Masonic and Eastern Star orders and their orphans.

At the last convention the matter was referred to a committee which has been investigating its feasibility, and everythng will depend upon the report of this committee.

So far a number of lodges about the state have been making voluntary contributions towards a fund for the home, and quite a sum is collecting in the hands of Mrs. Nellie M. Towner of Viroqua, who is the chairman of the committee. The sum required, however, is so large that unless the Masonic lodges decide to assist in the movement it is feared the plan will have to be given up.

Several sites for the home have been suggested, the one at Racine being the most favorably considered.

BASKET BALL GAMES AT HIGH SCHOOL

Girl Highs Win From Alumni, and Boy Alumni Win from the Highs.

A good sized audience witnessed the basket ball games at the high school gymnasium last evening where some spirited play was done. The first game was between the high school girls and the alumni team. The highs won both halves, the final score standing Highs, 9; Aumni, 6.

The first half of the boys' game resulted in victory for the alumni by a score of 13 to 6. The second half also resulted in a victory for the alumni although there was a chance at one time that the highs would distance their competitors.

The final score showed 21 to 19 in favor of the alumni. Both halves of both teams were evenly matched and the play was at all times spirited and exciting.

Ring Wards Off Bullets.

While dressing in his house in Philadelphia William Brown accidentally knocked a loaded revolver off a bureau. The weapon was discharged and the bullet struck a heavy gold ring which Brown wore, glanced off and buried itself in a window sash. The man sustained no injury whatever, though the ring was forced from his hand.

GET UP!

That's the morning call of Chanticleer. It's a welcome cry to a well man. But to a man whose sleep seems to have been only an unrefreshing stupor; who wakes with burning eyes, throbbing head, and a bad taste in the mouth, it means only a new day's misery.

In such a physical condition health is most surely and swiftly restored by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and organs of digestion and nutrition, and it cures through the stomach diseases of liver, lungs, kidneys, etc., which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition. It increases the activity of the blood-making glands, and every organ is benefited by the resulting increase of rich, pure blood.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and other narcotics.

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes (Prof.) Pleasant A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound; digestion bad; a continual feeling of misery. I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

EARLY STEAMERS.

Incidents Concerning Beginning of a Line of Boats.

The Collins line of American steamers was established in 1847. Two years later, on April 27, 1849, its first vessel, the steamer Atlantic, sailed from New York. The line was withdrawn in 1857, soon after the government had refused to renew the mail contract with it. The history of its steamers, briefly told, is as follows: On September 27, 1854, the Arctic came into collision with the French steamer Vesta and was sunk, only a few of her passengers being saved; on January 23, 1856, the Pacific sailed from Liverpool with 240 persons on board, including the wife of Mr. Collins, and was never heard of afterward; the Atlantic was broken up in New York in 1879; the Adriatic, built at Greenpoint, N. Y., by Steers, was sold to the Galway company, and was afterward used as a coal hulk in England; the Baltic was in the government service during the civil war as a supply vessel, and was afterward sold at auction; her machinery being removed and sold as old iron, she was converted into a sailing ship and used as a grain carrying vessel between San Francisco and Great Britain until 1880, when she was broken up. When the civil war began the New York and Havre Steam Navigation company, to which the Fulton and Arago were chartered, was withdrawn; the Arago was then sold to the Peruvian government, while the Fulton became a United States transport vessel for awhile, but she soon became useless and was broken up.—New York Weekly.

Dense Population About Boston.

According to Governor Crane, 40 per cent of the population of the state of Massachusetts is included within a circle including ten miles in every direction from the state house.
